The following pictures have been frame-grabbed from the video "Messengers of Destiny". This is an amazing video which documents the mass sightings of UFOs over Mexico in 1991 and 1992. The first major sighting occured during the total solar eclipse of July 11, 1991. This event is unique because the same UFO was videotaped by many independant sources. Some shots clearly show a metallic, disc-shaped object hovering in the sky.

I have taken 7 pictures from the video. The quality of the pictures are not fantastic, mainly because the quality of the original video recording is mediocre. To get the best effect, you should buy the video and see the UFOs in action - they are a truly amazing sight.

A quick description of the pictures:

MEX-UFO1.JPG

This picture shows a metallic disk hovering in a clear, blue sky.

MEX-UFO2.JPG

Similar to UFO1.JPG, this shows a UFO hovering amongst some clouds.

MEX-UFO3.JPG

This is a blowup of the UFO. It shows a metallic object with a dark underside.

MEX-UFO4.JPG

A side-by-side comparison of two videos of the same UFO.

MEX-UFO5.JPG

The same object, now in a darker sky.

MEX-UFO6.JPG

An enlargement of the UFO in a darker sky.

MEX-UFO7.JPG

A side-by-side comparison of six separate videos of a UFO.

Video info:

Messengers of Destiny

(C) 1992 Genesis III
Box 25962
Munds Park, AZ 86017

Hope many of you find this interesting. Believe me when I say you won't believe your eyes when you see the video!
